

FILTER KIT HERU 200/300 T NEXTGEN

These compact incinerable filters ePM1 50% are used in the HERU T energy recovery units.

The filter kit contains two filters.

Energy efficient air filter classes according to EN ISO 16890.

- **ePM1:** Filtration efficiencies 50–95%. Particle size up to 1 µm.
- **ePM2,5:** Filtration efficiencies 50–95%. Particle size up to 2.5 µm.
- **ePM10:** Filtration efficiencies 50–95%. Particle size up to 10 µm.
- **Coarse:** Filtration efficiencies not required. Particles all sizes.
