

## TG-R room temperature sensor Sensors

### Room sensor for measuring room temperature

- Room Temperature Measurement
- Wall Mounting
- Setpoint Adjustment
- Lockable Dial

[Find more details in our online catalogue](#)

#### Room temperature

The TG-R is a room sensor designed for measuring room temperature. To be used with the TTC, Pulser or RT 0-30.

#### Setpoint Adjustment

TG-R room sensor can also be used for setpoint adjustment only.

#### Lockable scale

The scale of the TG-R can be locked via means of a screw which is concealed behind the cover.

## Technical parameters

### Nominal data

Temperature adjustment	0 to 30 °C
------------------------	------------

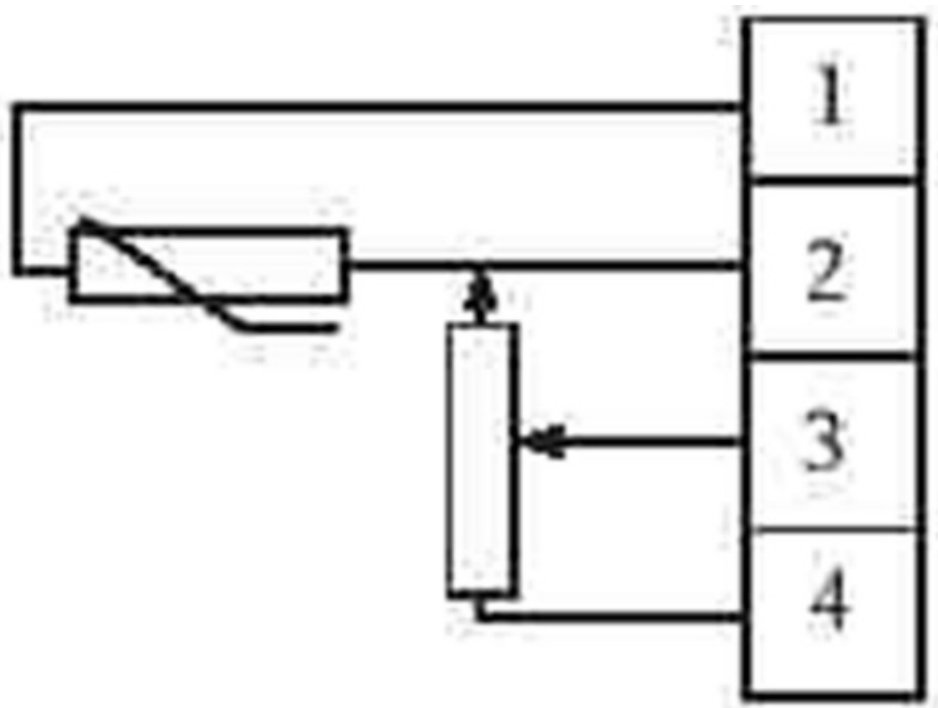

### Protection/Classification

Enclosure class	IP30
-----------------	------

### Dimensions and weights

Depth	30 mm
Height	86 mm
Width	86 mm
Weight	0.1 kg
